

SERIES C4000

TILT SINGLE/DOUBLE HUNG & FIXED WINDOWS

The Columbia C4000 and C4050 series of single and double hung windows is a standard for commercial tilt windows. Systems feature 1" insulated glass and double fin-seal weatherstripping with additional bulb gasketing on sashes and jambs to offer exceptional thermal and air resistance. The tilt-in feature of this window allows the exterior of the glass on the operating unit to be cleaned from the inside. It also allows the bottom sash to be removed for easy glass replacement if broken. The C4100 series is the fixed window unit and features a thermally broken frame and can be glazed with 1/4" or 1" glass. This series of windows is marine wrapped. Call your local Columbia sales representative for more information.

Features & Benefits Include:

- 3-3/4" Frame and Sash Depths
- Thermal System
- Single and Double Hung & Fixed Units
- Tilt Windows feature 1" glazing
- Fixed Window allows both 1/4" & 1" glazing
- Marine wrapped glazing
- Auto sill locks
- White bronze sweep latches
- Hardware options available
- Full complement of screening options
- Class I and Class II Anodizing
- Painted finishes available in fluoropolymer & Kynar based coatings to meet AAMA 2605

Performance Data

Air Performance per ASTM E283

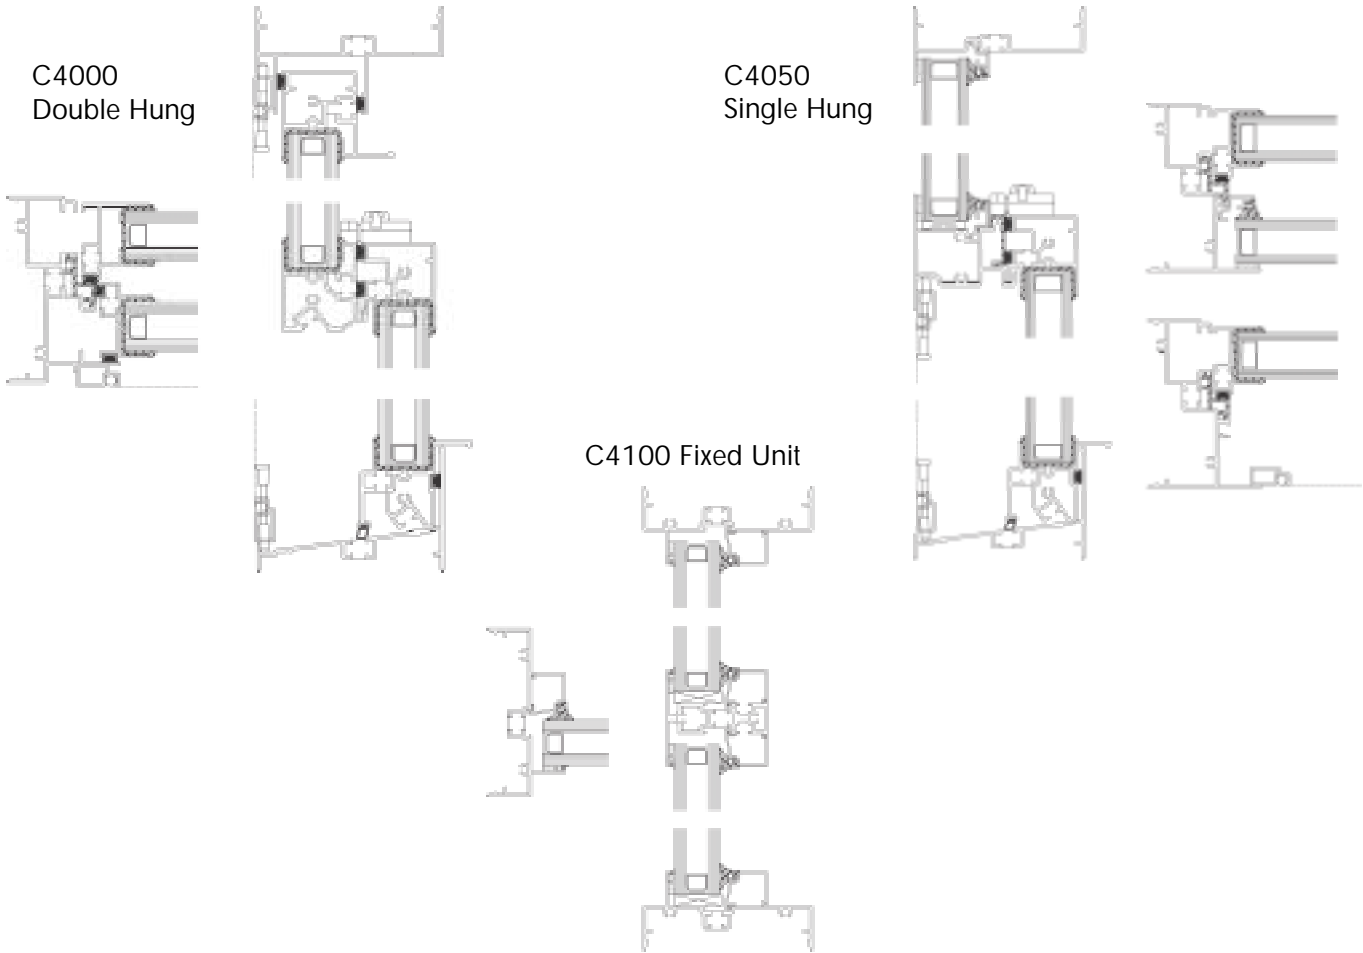

Water Performance per AAMA 501
& ASTM E331

Structural Performance per ASTM E330
