CGH Architectural Division is a single-source provider of a wide-range of architectural glass products, from insulating glass units to silk-screened decorative glass and engineered glass systems. Our team aligns each new project with the optimal fabrication site to meet quality and schedule requirements.

Our Architectural Division includes J.E. Berkowitz, Solar Seal, and Columbia Commercial Building Products. Dlubak Specialty Glass Corporation supplies specialty architectural laminated and bent glass solutions to the architectural market.

GLASS FABRICATION
- CNC fabrication:
  - Heavy glass cutting
  - Edging / polishing
  - Holes / notches / countersunk
- Heat-treated glass
